quotations. The Attorney-General of the United States has given as his opinion that obligations payable in merchandise and used for circulation come so evidently within the mischief intended to be remedied by the act of February 8, 1875, as to subject them to the tax of 10 per cent, imposed for that purpose. The act above alluded to provides "that every person, firm, association other than national-bank associations, and every corporation, State bank, or Statebanking association, shall pay a tax of 10 per centum on the amount of their own notes used for circulation and paid out by them."

Eight-tenths of all the exports of Cuba are to the United States. The total exports of sugar and molasses to all countries amounts to 56,000,000-to the United States 52,000,000. Of tobacco and cigars the total exports are 13,000,000; to the United States, 6,500,000. The value of the rum exported is \$324,416.60; to the United States, \$8,339.80. The total exports to Spain are \$4.288,476.40; to England, \$2.585,256.43; to the United States, \$58,526,678.96. Reports of destructive fires in Cuba are greatly exaggerated.
